Mr. ADD. T. SMITH, years ago of the mercantile firm of Astor and Smith, of this city, was in town last night, having arrived by the Paducah packet. He was warmly welcomed by his "friends of other days."

THE large building on Washington avenue, lately used by the Sisters of the Holy Cross for hospital purposes—and owned by Mr. J. G. Lynch, is being raised and leveled on a tangent with the semidiameter of the earth. Mr. James Sumner has the work in charge.

I. WALDER.

A PULASKI county individual by the name of Scott put in his time at the theater, last night, addressing insulting language to a respectable female present, and as a penalty for his disreputable conduct he is now serving out a fifteen days' term of imprisonment in the catabooze.

The corn mill of Messrs. Mackie is nearly ready to go into operation. Its capacity will be one hundred barrels of corn meal per day. As it is such establishments as this that must give vitality to our city, we shall avail ourselves of an early opportunity to give it a more extended notice.

—Go to Peter Neff's if you want a stylish Summer hat, clothing to suit the season, or anything in the line of gents' furnishing goods, fully ten per cent. cheaper than some articles were ever offered in this market. t.

THERE was a moderately good turnout last night on the occasion of young Gilhofer's benefit, and the performance gave general satisfaction. As agents were selling tickets throughout the city during the day, it is probable that the benefit was more substantial than the size of the crowd present indicated.

ANIMALS MURDERED.—Yesterday morning three cows were lying in the quag-mire beyond the Mississippi levee, unable to extricate themselves. During the day one of them was taken out and succeeded in getting out, but late last evening two of them were still sticking there, having abandoned all efforts to release themselves. It is said that they mired on Tuesday last. If the owners don't look after them soon they will die of thirst and starvation.

Youths' boys' and Children's clothes, a less than New York prices, will be sold this week, at P. Neff's, regardless of cost.

NOW AND THEN.

The following paragraph is taken from a dilapidated copy of the Cairo Times and Delta, dated May 11, 1856:

We frequently receive letters from a distance, containing inquiries as to the population of Cairo, and to know all at once what is the present estimated population of Cairo is now. Fifteen and sixteen hundred. The number of "souls" in Cairo, including the floating population, will average about two thousand.

At the present time, with several hundred of our laborers on the river, at work on Southern railroads and on the farms of the surrounding country, our population does not exceed ten thousand.

A SUMMER HAIL STORM.

The character of the weather during the past few days has, no doubt, prepared our readers for the announcement we are about to make, which is nothing less than that the city of Metropolis and vicinity were visited, yesterday afternoon, by a severe hail storm. A passenger of the Millbury informed us that the deck of the boat was covered with "hailstones," most of them as large as baseballs. The storm lasted five or six minutes, and was attended by a short wind. We could not learn how wide a scope of country it visited, but are inclined to think that it confined itself to the locality of Metropolis. The fall was so abundant that a quarter of an hour after the termination of the storm, the "hailstones" could be gathered from the deck of the boat, by the batfull.

We place this visitation on record as most wonderful and appeal to that venerable personage, "the oldest inhabitant," to say if he ever heard of like.

AVERT THE EVIL.

If mothers would give Mrs. Whitcomb's Syrup to their children when sick, mortality would be less among them. It costs only 25 cents. 16d

MOUND CITY MARINE WAYS.

THE MOST CAPACIOUS WAYS IN THE WEST.

Among the industrial establishments of the country, Messrs. Hambleton, Collier, & Co.'s Marine Ways, at Mound City, maintain and deserve the greatest prominence. They are acknowledged to be the best and most capacious ways west of the Allegheny mountains, presenting abundance of room and power for taking from the water such monster steamers as the Thompson Dean and Great Republic. The last named boat at one time occupied them, as did the Robt. E. Lee and other large steamers, every one of which were taken out, repaired, and then replaced in the water with signal and unvarying success.

The average number of hands employed in and about the ways and ship-yard, will scarcely fall under one hundred and thirty. The pay amounts to five or six hundred dollars per day, or one hundred and fifty thousand per annum. The timber used, which is of the very best character, is brought, in part, down Cache River and in part down the Ohio. The sawmill connected with the ship-yard is one of the largest and completest in the West, having a capacity of 30,000 to 40,000 feet per day, and cutting logs seventy feet in length.

At this time the ways are occupied by the United States sloop boat J. J. Abert, and a barge in course of construction, which, when finished, will be the largest barge that ever floated on the Western waters. Its length is 240 feet, width 40 feet, depth of hold 9 feet.

There is at all seasons of the year an abundance of water hence to Mound City. The ways there are the only ways in the West, in fact, that can always be reached by the large steamers that navigate the lower waters of the Mississippi.

The work is all done under the direct personal supervision of Captain W. L. Hambleton, one of the proprietors, and a gentleman who has devoted his life-time to boat-building and who, therefore, knows everything that is worth knowing in that connection. Furthermore, he is an upright and obliging business man, who gives the fullest satisfaction to his patrons, and in a thousand ways shows that, as superintendent of the Mound City Marine Ways and ship-yard, he is the "right man" right where he ought to be.

THE COUNCIL proceedings, for which we find place to-day, crowd out the usual fascinating variety of our editorial page.

TOBACCO SALES.

PLANTERS' TOBACCO WAREHOUSE

The sales of tobacco, yesterday and to-day, by the Planters' Tobacco warehouse company, are of themselves sufficient to establish the reputation of the Cairo market as among the best of the country. The great bulk of the tobacco was of low grade and Illinois growth. There were buyers present from St. Louis, Chicago, Detroit, Paducah and other points, all whom, desiring to buy largely, paid every cent the planters' price well satisfied and so expressed themselves. The sales for the two days, up to 2 o'clock this afternoon comprised 314 hogsheads. 1 hhd sold at \$50.00; 1 at \$30.00; 1 at \$21.00; 58 at from \$10.25 to \$13.50; 132 at from \$8.50 to \$11.10 and 11 at from \$6.00 to \$8.40.

When we left the warehouse at 2 o'clock a fine music was in progress, with about 60 hogsheads to offer, and a full board of buyers present. The whole lot was no doubt closed out, making the sales of the two days aggregate 394 hds.

See the announcement, elsewhere, of a grand concert, by the Turner Society, in Philharmonic Hall, on Monday evening the 13th instant. It will be a musical entertainment of decided merit, as the Society numbers among its members some of the finest vocalists of the city. Secure tickets, and go.

A COLORED festival was held in the hall over Phillips' store, last night, that called out quite a number of the colored population.

A gang of ruffians, however, endeavored to break-hands from some steamboat, flung chunks of coal through the windows of the hall, but fortunately committed no serious damage. Diligent search was made for the assailants, but they made good their escape.

Ruffianly conduct of this character can not be too severely reprobated.

ARREST AND DISCHARGE OF YOUNG HART.

Anthony Hart, fireman of the engine that ran over the negro boy, Porter, a few days ago, was arrested, yesterday, at the instance of the boy's relatives, who suspected that he was privy to the terrible and fatal occurrence.

On the trial, this morning, a negro boy swore very positively that Porter fell beneath the engine because of a push. Hart gave him to get him off the cow-catcher. On the other hand, the engineers swore that Hart was not on the engine at the time of the accident, and knew nothing whatever of the occurrence.

Under the circumstances Squire Gross was bound to discharge the prisoner. When the squire announced that the evidence was not sufficient to sustain the charge, the sister of the deceased boy "carried on" at a high rate, declaring in a loud tone that Hart was guilty; that after throwing her brother under the locomotive, ran home and changed his clothing that he might not be identified. How much truth there is in this assertion we shall not pretend to say. Of this, however, we have been assured, that the engineer who swore that Hart was not on the engine, is entitled to the fullest credence.

THE FESTIVAL LAST NIGHT.

The festival by the ladies of the Church of the Redeemer was well patronized last night. The crowd in attendance was large; but a larger per cent of the male persuasion might have found first-class entertainment—cheap for cash.

The room was decorated very handsomely. The side walls were embellished with evergreens wrought in pleasing shapes, while the tables, which lined either side of the room, were crowned with the most beautiful bouquets, and such other adornments as the good taste and skill of ladies only, could suggest and prepare.

In the rear of the room there was a spacious platform, which was occupied by the Cairo Silver Cornet band, and the great flood of sweet sounds that excellent institution poured out, was not among the least enjoyable features of the evening. The remarkably chilly temperature of the weather prevented an active sale of ice-cream, lemonade, iced-sherbet and articles of like character; but increased, correspondingly, the demand for hot coffee, etc.

The close of the affair was signalized by a dinner, in which many of the young folks joined most willingly.

THE MARKET HOUSE.

The property of re-opening the market house is being considered by a special committee of five, appointed by the city council. The vote, on the appointment of the committee, stood 7 and 7. The Mayor voted "aye," and appointed Winter, Mendel, Kleb, O'Callahan and Brankle as the committee.
